

Communication Systems

Lab # 04

Compiled by: Engr. Mariam Shafqat

Date of conduction: 7th^t October 2010

Date of Submission: 14th October 2010

Venue: Telecomm Engineering Lab ; CPED, UET Taxila

Task # 01:

Generate a signal and then generate its time inverted version.

Task # 02:

Generate a signal and scale it

Task # 03:

Generate a signal and time shifts it by some constant.

Task # 04:

Generate an analog signal and then sample it. The sampling interval should be given by the user.
