Quiz #02

Safia Jabeen

class abc

```
{ public static void main(String abc[])
```

```
{ float f = 68/10 + 28/2
```

```
System.out.println(f);
```

```
byte int a = 567 b = byte(a)
```

```
System.out.println(b);
```

```
}
```

~~68~~ + 14
20.8

Output:

f = 20.8 X

b = 567 X

0.5
/
