I am a woman who wants not to live just for the sake of living but as how life demands living. Besides, I believe the purpose of this life is much more than what we have thought it is.

Share some of your best experience at UET Taxila?

The best thing I found in university was the transitions happened during my time here. Being part of all those transitions, I feel myself both lucky and proud, and yes I love all of them.

Faizan Ahmed

10-SE-142

I am rude,arrogant,stubborn,egoistic and overtly complex for many. At home and among friends, am kind, smart, loving, shy and the-go-to guy. I like being opinionated both ways, I have realized. Personally, I think knowing one's own self is both purpose and secret of our lives; one that am still to discover.

What will you miss about UET Taxila the most ?

These 4 years, undoubtedly, are the best years of my life. I was never here for mere degree, I was here to enjoy life, that thanks to my friends, I did. I had to wait an extra year for my admission, that my parents never wanted me to, but I knew if I were to get an engineering degree, it shall be UET.

Komal Sharif

Where do you see this university in 10 years?

The way UET is changing I can say after 10 years it's environment might become like one of the private universities. The things for which UET was famous once won't be there. I also hope for some changes in teachers and administration.

Describe four years of your life in UET?

Four years of UET were LOVE!. I might write a book to describe each and every detail of the life I've spent here. That enthusiasm in 1st year, those groups of boys, those fights in class, those nights we spent on roads. My first supply! The chilly water of "Tarnawah". Samoosa Chaat of Nawazish. The sheer happiness when we won inter-departmental cricket tournament. First ever Student Week '2010. My 4 years with UALS family. In short I would say UET is the LOVE OF MY LIFE.

Planned. This is what I have learned so far. Since the beginning shyness was my total personality. But as I went through the steep lane of life, my personality totally changed. Now I can proudly say that sophisticated, loyal, hardworking and confident are the words that best describe me.

I am a nerd, no doubt, but that's the most important ingredient for becoming an engineer. So I am proud of it. Besides studies, I have many personal interests like painting, cooking, watching movies. But as I am a little bit moody so my interests change with time, I can't stick to one thing for long. The only fear I have is related to my work. I know its strange but I can't compromise with its quality. I don't have much experience with fights but my friends have been one of my greatest treasures so far. My greatest achievement is my study record.

Ulfat Ayesha

10-SE-02

I belong to a small city of south punjab "Taunsa sharif" and one thing I like the most about myself is my confidence, and I think this confidence is because I'm fair in each and every matter of my life, and if we are fair in every matter of our life then we can't have any type of fear.

I think still I don't have any special achievements but only 30-40 certificates and 3 shields from my UET Taxila for different events. And I think I have best management skills. I just love the little fights with my friends specially in hostel, it reminds me my childhood memories. Well I will miss my whole UET after graduation but one thing I will miss the most is its weather.. I just love the weather of UET.

Nayyera Baidar

10-SE-121

My aim in life is "to join Pakistan Army". "Khaaki Uniform" inspires me a lot. My hobbies are listening music , reading Urdu novels and watching movies. Some people say that my laptop is a store of Movies. I also play badminton in free time.

Ehatisham-ul-Haq

I feel myself as a simple person who does not talk much, remains in limits and respects others. I am not confident in meeting with people, having gupshup with them. I try to do everything to care for others.

What do you love most about UET?

Simplicity. In comparison with other universities, UET students are quiet simple and humble, they don't have attitude problems; they talk freely and openly with one another without any formality in their natural style. They don't try to be what they are not. Nice, Simple and Straight.

The foundation of XNews in UET Taxila is one of the things that I could do for UET and I want it to be official soon under the administration of the university and the best media coverage provider.

On behalf of XNews UET Taxila, I have covered more than 200 events in only 2 years, for this I want to thank all the members of Xnews for helping me. In the end I only want to say that UET will always remain in my heart and I'll never forget my best days in the university.

Nouman Latif

Four Years passed in the blink of an eye. Still can't believe we are gonna pass out soon. Being CR of my class, it was really a great time with my fellows. 2K10 SE is Love. Hard work promoted me from a volunteer to Finance Secretary of Softdesk in a single Year. Memories that cannot be vanished. It's not the "Good Bye" that hurts, but the "Flashback" that follows.

Abdullah Haroon

10-SE-157

Grooming, Self Respect and Confidence.

Usman Ashraf

None of us can predict the future but one thing we should all know about it that it's not gonna go according to our plan.

So instead of sticking to just one thing or one goal, it's better to have many! UET gave me nothing except cool weather and some good friends. Overall, it was a good experience but don't ever choose it as your bachelor's institute, I repeat, DON'T!

Amna Saleem

10-SE-161

Well to me university is all about making memories that will last forever. University can show you aptitude and provide you an open door, however it can't show you sense, nor provide you understanding. Sense and understanding are delivered inside one's spirit.

Samia Ishtiaq

10-SE-28

A university is not about result of the semester, it is not even about a student who has graduated. It is about learning that molds a lifetime; learning that transmits the heritage of millennia; learning that shapes the future.
